Have you just purchased a new server and need it setup and configured? Need a piece of software installed? There is virtually nothing that we can't accomplish on your server for you.

We also will act as the full-time administrator for your servers. At a base price of \$95 per month, we'll monitor and reboot as neces

sary, plus keep the server up to date, make sure that there are no problems cropping up, monitor for spammers, and everything else needed to ensure smooth server operation for your clients. This fee includes five hours minimum per month on server maintenance and an additional five hours of on-demand administration duties, as per your needs. Additional hours are billed at \$50 per hour.
